

## Name the note.

Name these notes. Watch out for clef changes and accidentals

### Answers

### Discussion points

Clefs > Q

Double sharps and flats > keypad. To respell hit enter or go to note input > re-spell

Hide clef > control shift H

Text > Plug in > note names (solfa, above notes, in noteheads). Alternatively go to notations > add note names.

With solfa, remove rhythmic markings. Use expression for italics.

Bar numbers removed > Text > no bars

Double bar line > Notations > Barline

Logo or graphic > Notations > Graphic

Colour > Home, color and choose. Or automatically set colours. Plug in (or ribbon search) > color pitches.

Same with boomwacker plug in.
